CHANEL'S  
LITTLE BLACK JACKET

# CUBISM

**N**ada G's Lamis manchette is truly one of its kind. Rather than being cylinder-shaped as are most cuffs, it is ingeniously crafted in a square form, creating an interesting contrast when worn. Surely a conversation starter, this 18K gold bracelet with crusted texture is available either in solid gold or decked with rose-cut diamonds. Slip it over anything from your bare arm to a crisp white shirt for guaranteed impact. ■
